

Social Enterprise and Business Facilitation Committee

Partner Organization in "Dialogue in the Dark" Executive Training Workshop

Date: 7 January 2009

"Out of sight and upside down, there's the world where roles reverse. The sighted, now disabled, must follow the blind. The chemistry and the dialogue are a sight to behold...."

Communication, team-building and innovation are fundamental to the success of a leader.

The Executive Training Workshop by "Dialogue in the Dark" is a unique approach workshop focusing on personal and leadership development designed for senior executives, professionals and leaders.

Each workshop session lasts for three hours. Participants will spend the first two hours in the dark with the trainers doing group activities. In the final hour, in a room with light, a professional facilitator will lead a de-briefing session with participants, when they will reflect on lessons learned and share experience.

The workshop aims to enable participants to:

- Cope with uncertainties and accept challenges
- Remain confident and be innovative in unfamiliar environment
- Reflect on conventional ways of communication
- Maintain team spirits in challenging times
- Strengthen mutual trust and care with colleagues

[8] HKWPEA members and friends attended a "Dialogue in the Dark" Workshop on 7 January 2009.
